

## **Current Mobile Pump-out Schedule As of April 1, 2017**

**Due to the nature of TLMC's business on the lake, as it stands today with a new concessionaire operating the marina, we do not have staff on the marina. Our barge crew, whose primary task is the maintenance of the mooring and marina infrastructure, will be handling the mobile pump-outs and can only be available one day a week. Therefore, we have set the following schedule:**

**Wednesdays:**

**Whole lake weekly until July, then**

**Arnold Bay and Piney Creek every other week beginning July 5, 2017**

**Spillway Bay and Temperance Bay every other week beginning July 12, 2017**

**Mobile pump-outs will only be offered from Arnold Bay and Piney Creek to the Spillway Bay and Temperance Bay including all areas in between. There are no mobile pump-out services offered up river from Arnold Bay, or toward Cotton Arm beyond Spillway Bay.**

**Mobile pump-out service is predicated on availability of the crew. Should extenuating circumstances prevent us from performing the service any time, those on the list for that day will be notified.**

**It is encouraged that you call to get on the mobile pump-out list as soon as you know you need it. We will not be adding to the pump-out list the day of the pump-out and the crew will take care of those on the list only.**

**You are always welcome to come into Barrett Cove Marina to be pumped out at no charge. Call us at least one day in advance to schedule.**
